

TDAR Closing conference

Stockholm, September 9, 2015

TDAR is a project which aims to contribute to the development of vocational training for staff in the care sector by transfer and further development of the innovative results from the projects ArbetSam and SpråkSam to different European countries.

For this to be possible all resources and other guidance were translated into English and then further translated to German, Spanish and Basque. Before starting to test ArbetSam products, partners have compared the circumstances prevailing in adult social care and education in their own countries to those in Sweden that gave rise to the ArbetSam approach.

In this closing conference you will learn about the results of the piloting and further development in the participating countries but also about effects in Sweden and recommendations for the future. The conference will be interest to you if your work touches on integration, adult education, migration, language learning and/or labour market issues.

Time: Wednesday September 9, 8.30 a.m. – 15.30 p.m.

Venue: County Board of Stockholm, Hantverkargatan 29 (the centre of Stockholm). Refreshments will be provided, but please note that lunch is not included.

The conference is free of charge. The conference language is English.

Welcome to Stockholm!

Bengt Larsson
Project Director

TDAR Closing conference

PARTNERS

Stockholm Gerontology Research Center is the project owner of TDAR. The core areas of the Center are research and development. Its task is to improve living standards for the elderly by utilizing and putting into practice experience and research results.

UC Leuven-Limburg is an institution for higher education in Flanders, Belgium, and is part of the respected University Association Catholic University Leuven.

Interculture.de e.V is a non-profit organisation in Germany spun off from the Institute for Intercultural Business Communication of Jena University. Interculture.de e.V. offers continuing education programmes for adults in the field of "Intercultural Communication".

Nazaret culture centre, Nazaret Zentroa, is a vocational educational training institution in Spain.

Oxfordshire Skills Escalator Centre in Great Britain is a social enterprise that exists to support learning in the low status workplace, particularly in relation to the crucial foundation skills of literacy, English language, ICT and numeracy.

City of Stockholm is an associate partner by The Labour Market Administration and Kungsholmen district. The main objective for the Labour Market Administration is to help unemployed people who live on income support to find other means of providing for themselves – through work or studying. It is responsible for adult education and Swedish for immigrants in the City of Stockholm. Kungsholmen district with the Serafen's elderly care home has in recent years worked determinedly to improve workplace learning and language. It participated in both Språk-Sam and ArbetSam.
